

Welcome to your Oasis

Our largest travel trailer for your greatest adventures

Sophisticated Design

Engineered to exceed your expectations, designed to inspire your expeditions. In the Oasis, you will find handcrafted cabinetry matched with high-end finishes to elevate every traveler's experience. With each space thoughtfully constructed to maximize comfort and functionality, you'll never have to leave the luxuries of home behind.

and an and a state of the state

Go ahead, kick your feet up

The Aluminum Advantage

Built to tow: Aluminum is lightweight and extremely durable, making it an ideal structure to tow.

Built to trust: Unlike a wood frame, our aluminum cage is designed to support a fiberglass outer structure making it rust, water and even dent resistant.

3

Built to last: By crafting one solid structure formed from fully welded aluminum, we are providing the strongest foundation using the longest-lasting materials on the market.

Built for more: Our "Tilt–Forward Design" expands the interior living space without adding length to the trailer's frame.

2

inTecl

Built for style: Bringing more dimension and elegance to the exterior frame, the tilt offers a sleek and fresh perspective to the classic travel trailer design.

3

Built for you: Enjoy every meal with the ultimate view from our panoramic windshield that gives you a front row seat to nature's beauty.
